## STRICKEN WITH APPENDICITIS IN PULPIT SUNDAY

The Rev. M. E. Dodd is Rushed to Hospital and Operated on.

Pastor of First Baptist Plucky to Last.

HIS CONDITION FAVORABLE.

Stricken with acute appendicitis, while preaching his morning sermon at the First Baptist church yesterday, the Rev. M. E. Dodd was rushed to Riverside hospital, where an operation was performed. His condition is still serious, but he rallied encouragingly from the shock of the operation and is resting well.

For several days Dr. Dodd has been complaining of being ill, but failed to give up to the pain. His condition was known to but a few members of his congregation when he entered the pulpit yesterday morning and began the delivery of his morning sermon. He was about half through his discourse when he was compelled to request the congregation to excuse him from finishing his sermon on account of the pain.

Dr. Dodd's family was out of the city, but he said that he would return to the parsonage, thinking that the pain would be eased. However, Dr. J. T. Reddick took him to his home, and ascertained that he was suffering from a severe case of appendicitis. The operation was performed immediately. To have waited until today would have been dangerous. Dr. Dodd intended to leave tonight for Baltimore, as a delegate to the Southern Baptist convention. His pulpit was filled last night by the Rev. J. B. Clark, pastor of the North Twelfth Street Baptist church.

This afternoon the Rev. M. Dodd's condition was entirely satisfactory to his physicians. Mrs. Dodd and his father arrived last night from Martin, Tenn., to attend his bedside.

## Want Train Stopped

Petitions were sent out today to all of the towns in McCracken and Ballard counties for signatures to petition the Illinois Central railroad to stop outgoing passenger trains at Eleventh street and Broadway and permit passengers without baggage to board. At present it is necessary for shoppers coming to the city on the Cairo train to go to Union station for the return trip, as the outgoing trains do not stop at the Broadway crossing. After several hundred names have been secured the petitions will be forwarded to the officials.

## VISITING PASTOR IS WELL LIKED BY PEOPLE

Two large congregations greeted the Rev. H. M. Wiesbeck, of Newark, O., at the German Evangelical church on South Fifth street yesterday morning and evening. The morning sermon was delivered in the German language, while English services were held at night. The church is without a pastor and the Rev. Mr. Wiesbeck made a very favorable impression upon the congregation. He will return home tomorrow. No action has yet been taken by the church board in the matter of calling a minister and it is probable that the Rev. Mr. Wiesbeck will be asked to assume the pastorate.

The Willing Workers' society of the German Evangelical church will meet Thursday afternoon with Mrs. Louise Seamon at her home in Farley place, Mechanicsburg.

There was 65 per cent of spring planting completed to May 1, as compared with 51 in 1909, and 54.7 in 1908.

Judge of Porto Rico.

John J. Jenkins, of Wisconsin, was nominated by President Taft today to be United States district judge in Porto Rico.

A report favoring the passage of the Mann bill, authorizing Michigan, Indiana, Illinois and Wisconsin to enter into an agreement as to the prosecution for crimes committed on Lake Michigan, was adopted by the senate committee on judiciary today.

Abusing Franks. A charge that senatorial mailing franks are being used to circulate campaign matter regarding the tariff, was made by Senator Stone this afternoon, who introduced a resolution, asking for an investigation.

Suits Filed in Circuit Court.

Baker-Beebles & company filed suit against Sam Bynum & company, of Murray, for \$208 alleged due for merchandise.

Benjamin Calhoun filed suit against the Illinois Central railroad for \$2,000 for personal injury. Calhoun was an oil boy at the shops and alleges that through carelessness he was struck in the face on March 30 and permanently injured.

## FARMERS' UNION MEET WAS SUCCESSFUL ONE

"It was a successful meeting in every particular," said Mr. R. L. Barnett, state secretary-treasurer of the Farmers' Union, in speaking of the mass meeting of the Farmers' Union held in St. Louis last week. Saturday night the meeting closed with an address by William J. Bryan and Mr. Barnett said it closed with the greatest of enthusiasm. President Taft, Secretary of Agriculture Wilson, Samuel Gompers and other notable men addressed the members. W. A. Murray, one of the leading members of the Farmers' Union in Oklahoma, delivered an able address as well as other officers of the union.

## Six Team League is Planned For Kitty

The Kitty league will be composed of six clubs, according to the advice received this afternoon by Treasurer W. E. Cochran from President C. C. Gossnell. Henderson has raised the necessary money to enter the league and equip a club. The name of the sixth city has been withheld, but President Gossnell said that if funds do not raise the money by Wednesday that Marion, Ill., will be taken into the fold to complete the circuit of six clubs.

Practically nothing was done yesterday at the meeting of the officials at Hopkinsville. All day was spent

The predictions and temperature for the past twenty-four hours will be found at the top of the seventh column on page four.

OIL TANK.  
New York, May 9.—Twenty men injured, five fatally, when a soldering iron dropped into an oil tank at the Standard plant at Williamsburg this morning. It exploded.

## PRISONERS TAKEN TO PEN TOMORROW

NO WOMEN IN THIS CONVOY—TO REFORM SCHOOL.

Tomorrow will be get-away day for the prisoners convicted at the last term of criminal court. Sheriff George Houser will leave tomorrow for Eddyville with the eight prisoners sentenced to the penitentiary. For the first time in several years not a woman was convicted at the recent term of court. Mann Clark will leave early tomorrow morning for Lexington, where he will convey Joe Doyle, a boy charged with stealing \$59, for one year in the reform school.

## AUTOMOBILE FACTORY MAY BE LOCATED HERE

There are excellent prospects of an automobile factory being started in Paducah. Several business men are discussing the feasibility of a factory for the manufacture of the cars, and it is expected that a company will be organized. At the outset it is expected to manufacture small cars to sell at a low price. Most of the smaller cars are simply assembled, and the parts can be purchased and assembled in Paducah as cheap as any place in the country. It is a splendid field for investment, and the organization is expected to be made.

## ROTTGERING WILL IS FILED TODAY

EQUAL DIVISION OF ESTATE AMONG ALL THE CHILDREN IS PROVIDED.

The will of H. W. Rottgering, a wealthy German citizen, was probated in county court this morning. After all of his debts are paid, by using the money received from two insurance policies and the sale of any property necessary, he devised all his property to be divided equally between his six children, Mrs. Emma Rudolph, Louisa Rottgering, William Rottgering, Charles Rottgering, Henry Rottgering and Minnie Rottgering. He asks that the property be not divided until his youngest child is 21 years of age, and then for the estate to be divided equally, providing for Mrs. Emma Rudolph to receive her present residence and eight lots at Thirteenth and Palm streets; William and Charles Rottgering the farm of 192 acres and his youngest child, Minnie Rottgering, the home place. His sons, Charles and William Rottgering, are named executors without bond.

The body of Edward will first lie in state three days in the throne room of Windsor castle, which will be decked in mourning. Then the members of the foreign nobility, nobles and high officials will be given a chance to view the remains. Then the coffin will be placed on a gun carriage and slowly driven through the lanes of troops to Westminster hall, where the public will be allowed to pass before the corpse.

## MEDIEVAL POMP AND PAGEANTRY IN LONDON TOWN

Heralds and Kings at Arms Move Through Lane of 7,000 Troops.

Formally Proclaim George V King of England.

ARRANGE FOR THE FUNERAL.

London, May 9.—George V was formally proclaimed king at 9 this morning. The pomp and heraldry of mediaeval ceremony was featured. It was officially announced that Edward's funeral will be May 20 at Windsor, the body to lie in state in Westminster hall the three days preceding.

According to custom the mourning was not permitted to interfere with the proclamation ceremonies. Under the leadership of the Duke of Norfolk, who is hereditary earl marshal, heralds, pursuivants, kings at arms and escorting guards appeared in the Priory court of St. James palace, the scene of the daily guard mount. The garter king, advancing to the front of the gorgeous balcony, looking upon the saluting troops, read the proclamation, ending with "God Save the King." It was a signal for the playing of bands and the royal salute of cannons. Two carriage loads of heralds drove the Charles Cross, Temple Bar and Royal exchange, re-reading the proclamation. The entire route where they passed was lined by 7,500 soldiers and 300 policemen, who had a hard time holding back a crowd of a half million.

King George issued an order that theaters may reopen and close only on the day of Edward's funeral.

The proclamation exercises paralyzed the city's traffic. The Lord Mayor gave the first toast to the new king today. All the government officials are taking the oath of allegiance to the new king. George answers messages of congratulation personally. He was closeted several hours with his advisers.

Funeral Arrangements.  
The cause of the death, given out by Edward's physicians, is not generally accepted by English medics. They believe he suffered a stroke of apoplexy shortly before his death.

Tentative arrangements for the funeral are completed. Lord Escher, who had charge of Victoria's funeral, will superintend it.

The body of Edward will first lie in state three days in the throne room of Windsor castle, which will be decked in mourning. Then the members of the foreign nobility, nobles and high officials will be given a chance to view the remains. Then the coffin will be placed on a gun carriage and slowly driven through the lanes of troops to Westminster hall, where the public will be allowed to pass before the corpse.

The Tomb of Kings.  
The tomb of the late King Edward VII will be beneath the Albert memorial chapel at Windsor, where the body of his eldest son, the duke of Clarence, has a sepulchre. The funeral probably will be held on May 20. Before the burial, it has practically been decided, the body of the king will lie in state in Westminster Hall, under the house of parliament, which was the scene of a similar ceremony when for two

## ROOSEVELT IS ON WAY TO GERMANY

THROAT TROUBLE WILL NOT DEVELOP SERIOUSLY, THE DOCTOR SAYS.

Stockholm, May 9.—Roosevelt's throat was still bad when he left at 11 this morning for Berlin. He will be the guest of American Ambassador Hill, as Edward's death changed the Kaiser's plans. He will arrive at 9 tomorrow morning.

Dr. Hagener, a Swedish specialist, who treated his throat several times, says Roosevelt "has a slight cold, aggravated by too much talking. It is characterized as incipient bronchitis, but bronchitis has not really developed, and I don't expect it to, if the colonel will give himself a few days' rest."

Attorney A. E. Boyd is in Mayfield today, attending court.

## Customers of Aaron Tilley's Boat Engage in Bloody Battle Sunday on Street of Metropolis, Illinois

Citizens of Eighth District and of Illinois Terribly Aroused and Summary Vengeance is Threatened.

Herman Harris lies in his bed at Metropolis with a serious bullet wound in his left groin. Henry Reno is wounded in the head with an ax, and Jack Capps is a fugitive from justice in Kentucky, as the result of a Sunday fight in this city by a party, who returned on the Gladys from Aaron Tilley's houseboat at Metropolis Landing.

The incident, which took place Sunday afternoon about 2:30 o'clock probably will put a speedy end to the career of the houseboat, which officers found stored with whisky and beer a week ago. Aaron Tilley was indicted by the grand jury last week. He gave bond and returned to his boat. Kentucky citizens in the neighborhood are clamoring for protection, and threaten to take summary vengeance, unless the authorities do something speedily. The same sentiment prevails in Metropolis. It is said a hundred visitors to the houseboat each Sunday from Illinois territory is no exaggeration, the Gladys, Tilley's launch, making trips as fast as she can all day and nearly all night.

Constables A. C. Shelton, of Paducah, and Jeff Banister, of the Eighth district, and Elwood Neel, deputy United States marshal, raided the place Sunday, May 1, when they found it stocked with liquor. It is said a negro was induced to buy liquor as evidence, though Tilley claims he does not sell to Kentuckians.

Tilley produced a United States license, which had expired in March, but it is said he possesses one that is still in force. The possession of a United States license is now prima facie evidence of the sale of liquor, in cases where no state license has been secured, as in this one, and Tilley naturally is backward about showing how he stands with the federal government. Deputy Marshal Neel is assured that Tilley possesses a government license, so his hands are tied, and he has no authority to arrest without a warrant.

The state case is selling without a state license, and it is said, Illinois authorities have promised to send over a hundred witnesses, who will swear they bought liquor of Tilley in McCracken county. It is also probable that affidavits will be presented from citizens of the Eighth district that he is maintaining a public nuisance. County authorities and those of Illinois are exceedingly anxious to make a strong enough case against Tilley to put him out of business, because they fear that if they do not a mob from one side of the river or the other, of both, will execute the unwritten law.

One Metropolis citizen said today that his brother, who had quit drinking when the town went dry, had been drunk all the time for four weeks, since Tilley opened his resort, and the other day while wrestling on the wharfoat at Metropolis with a woman of ill-repute, he fell into the river and almost drowned. "You might think there was a baptizing at the river on Sunday, from the stream of people you see going down to the launch Gladys and returning," he said.

The Fight Sunday.  
Sunday's fight apparently was just a drunken row. Reno and Capps quarreled on the boat returning to Metropolis, and when they landed Reno struck Capps on the head with a beer bottle. Capps went to his home nearby and secured his revolver, of large calibre, and returned to the fray. He struck Reno with the ax, and when Herman Harris attempted to separate them, Capps shot Harris in the groin and ran.

Harris was taken home, where medical attention was given him, and Capps secured a skiff and rowed toward Paducah. Officers were notified by telephone to watch for him. Capps formerly lived at Rock Hill, Ill., and is said to have been in a fight before.

FIREMEN BRING SUIT ON CIVIL SERVICE GROUNDS.

To test the law regarding the civil service in the fire department, Jake Elliott and John McFadden, former members of the fire department, have filed suit in circuit court, asking for reinstatement and for salary due while not working. They allege they were elected in December, 1909 and were discharged without the formality of bringing charges. McFadden alleges \$175 is due and Elliott, who was assistant chief, \$300.

## INJURIES FATAL AND MILLER DIES SUNDAY EVENING

Popular Tinner Succumbs to Results of Fall From Scaffold.

Was Paralyzed and There Was No Hope.

HIS FUNERAL AND BURIAL.

After lingering two days, John W. Miller, 46 years old, who sustained fatal injuries last Friday afternoon by a 30 foot fall from the colored Christian church on Trimble street, died at 4:30 o'clock yesterday afternoon at his home 1155 North Thirteenth street. Mr. Miller was precipitated to the ground and paralyzed set in from his chest down. He was kept partly under the influence of opiates to relieve his agony.

Mr. Miller was a native of Pennsylvania and had lived in this city for the past 15 years. He was the last member of the family. Early in life he became a member of the Presbyterian church. He leaves his wife, Mrs. Nannie Miller. Mr. Miller was a well known tin contractor and leaves many friends here.

The funeral services will be held at 2:30 o'clock tomorrow afternoon at the residence, the Rev. R. W. Chiles, pastor of the Union Rescue Mission, officiating. Burial will be in Oak Grove cemetery.

Burial of William McKewin.  
The body of William McKewin, formerly a car repairer at the N. C. & St. L. railroad shops at Paducah, was laid to rest in the position of car inspector of the Memphis division of that road with headquarters at Springfield, Tenn., will arrive here from Springfield at 1:10 o'clock tomorrow afternoon. The burial will be at Oak Grove cemetery under the direction of the Woodmen of the World lodge, of which he was an active member. Mr. McKewin, left this city three years ago and was well known here. He leaves his wife and one child. He was about 45 years old.

Mrs. Charles Smith.  
Mrs. Charles Smith died this afternoon at her home on South Fifth street, of tuberculosis.

Cripplewhips Won.  
The Cripplewhips defeated the Wallersteins yesterday by a score of 15 to 6. Eaker and H. Mercer composed the battery for the winners, while Ford and Cathey were on the points for the Wallersteins. The feature of the game was the heavy hitting of the Wallersteins, who cluttered the sphere to all corners of the lot.

A CLOSE CALL.  
Workmen at the custom house narrowly escaped injury about 8 o'clock this morning when a rope used in hoisting a heavy piece of stone to the top of the building broke. Part of the scaffolding was wrecked but no one was injured. Repairs were made at once and work proceeded.

## MRS. HYDE TAKES WITNESS STAND

SAYS SWOPE HOME WAS UNSANITARY—SWOPE TOOK POISON.

Kansas City, May 9.—Mrs. Hyde took the stand this morning and defended her husband. She said her Uncle Swope took strychnine to combat weakness after he quit drinking. It is expected the doctor will testify.

Mrs. Hyde testified that her husband was not at the Swope home the day he is accused of infecting the water with typhoid germs. She declares the Swope home was unsanitary, and had many culture spots for typhoid. The trial is drawing to a close.

Mrs. Hyde explained that the alleged poisoning of Margaret Swope with pus germs was an injection of camphorated oil her husband prepared before he entered the sick room. It was at her suggestion that her husband went to New York to meet Miss Lucy Lee Swope.

## Serious Runaway

Q. L. Smith, of New Hope, was seriously injured and his brother, Mark Smith, severely hurt in a runaway at Lone Oak this morning, when the horse they were driving became frightened at a drove of cows. The boys were thrown out. Q. L. Smith alighting on his head and being dragged a considerable distance. His right wrist was splintered and he was unconscious until nearly noon. The accident happened at 8 o'clock. The boys are sons of W. T. Smith, of New Hope.

Go to Joliet.

Watseka, Ill., May 9.—Mrs. Lucy Sawyer and Dr. William Miller, convicted of killing Banker J. B. Sawyer, at Crescent City last July, will be taken to Joliet penitentiary either tonight or tomorrow morning.

## Building New Towboat.

Captain E. A. Voight is preparing to build a new towboat at Third and Elizabeth streets. The new boat will be modern in every respect. About two years ago he built the steamer "E. A. Voight," which he sold several months ago. Machinery for the new boat has been purchased already.

## WITNESS DIDN'T KNOW OF BRIBERY

FORMER STATE PRINTER IN OHIO SENT TO PENITENTIARY.

Springfield, Ill., May 9.—Representative George English was the only witness before the grand jury here in the Lorimer scandal this morning. He said he did not hear of any money mentioned in connection with the legislative corruption.

### FIRST FIRE ALARM AT NEW CENTRAL STATION.

At 4:30 o'clock the first fire alarm was received at the new Central station. It was a small fire at the residence of Clyde Young, 506 Ohio street, and no damage was done. The Central hose wagon and hose company, No. 4, and truck company, No. 4, answered the alarm. The new horses delayed the Central station firemen only a few seconds. At the sound of the gong they raced under the harness, and started off like veterans.

## ONE SAWED BAR AS OTHER PLAYED

JAIL DELIVERY FRUSTRATED JUST IN TIME.

Turnkey Walter Cartee Might Have Been Killed By the Jail Birds.

TWO DESPERATE PRISONERS.

Awakened by the sound of the sawing of steel bars above the music of a mandolin, Walter Cartee, deputy county jailer, early Sunday morning prevented Cicero Anderson, sentenced to one year in the penitentiary for malicious shooting, and Troy Dill, a bootlegger, escaping from the county jail. When detected they had sawed through a heavy bar and were preparing to make their escape from the corridor when Jailer Henry Houser and Cartee overpowered them and took away two razors, one knife and a steel hack saw with two other saws.

It was about midnight when Cartee, who sleeps at the jail, was awakened by the steady sawing, although the music from a mandolin partially drowned out the noise. Carefully slipping to the door he ascertained that some white prisoners were at work on the bars. Realizing the need of assistance, Cartee rushed across the street to the residence of Jailer Houser and awakened him. When they reached the jail again the prisoners were loose in the corridor and were free to pick a hole in the wall, which is weak. Cartee called Dill to the door, and when he responded the deputy jailer seized two razors in the prisoner's pocket.

With one prisoner disarmed the search began for Anderson, who, it was discovered, had placed a pile of clothes in his bed to serve as a dummy. Jailer Houser entered the jail, and with pistol in hand made a thorough search. From the lower floor Anderson would swing himself up to the second platform around the cage and reverse his tactics when Jailer Houser was in the white prisoners' ward. Finally he was spied and surrendered without resistance. The saw was discovered concealed under his vest. He was armed with a pocket knife.

After being captured both prisoners were handcuffed together and placed in another cell for safekeeping. Both appeared chagrined over the frustrated attempt at jail breaking. All yesterday the two men were handcuffed together and will remain so until Anderson is taken to the penitentiary.

**The Plot.**  
After both prisoners were behind the bars safely their neatly arranged plan of escape was exposed. Anderson has been head cellman in the white department and his cell is opposite the main door. It is possible for the head cellman to walk out of the cell to the door, but he does not have egress to the corridor because of a door which is locked by a lever from the outside.

Saturday afternoon, when the prisoners were locked in the cells after exercising in the corridor, Troy Dill hid and failed to go to his cell. Near midnight the saw was handed to him, and while Anderson played on the mandolin he sawed the lever. With this severed it was possible to release Anderson from his cell to the corridor.

Fortunately the clever plan was nipped in the nick of time. It is thought that their ruse was to call Cartee and while apparently safely locked in their cells, to get the deputy jailer to open the main door for the purpose of seeing a sick prisoner. With the two razors and a knife, the two prisoners might have overpowered Cartee and successfully escaped. Should this plan have failed, it would have been an easy task to dig a hole in the wall in a short time with the tools they had.

Anderson is considered a desperate man, although a mere youth. He has served a short term in the penitentiary for murder, but was released, and in a few days after returning from Eddyville was arrested for malicious shooting. Last summer he escaped from the prison in a wholesale jail delivery. He was recaptured and will be taken to the state penitentiary this week to serve one year for malicious shooting.

Since his last imprisonment Anderson has been a model prisoner and has been granted privileges. When covered with the pistols of Jailer Houser and his son, Lloyd Houser, and Cartee, he looked up with surprise and his only comment was "What do you think we are—outlaws?" Later he appeared overcome and with tears in his eyes said he tried jail breaking because he was sentenced to the penitentiary for something he did not do.

Dill is serving a sentence of four months in jail and a fine of \$100, which was given at the last session of federal court. He is considered a desperate man and has been unruly most of the time in prison. He was brought from Graves county for bootlegging.

Had the two prisoners been successful, none of the other prisoners could have escaped because they were safely locked in the iron cage, which has only one door.

It is probable that the person who

### NASAL CATARRH.

Henry L. Britton Says It Is Easy to Get Rid Of.

"My head, nose and glands leading to my eyes and nose were stopped up and swollen. I tried several so-called catarrh cures, but Hyomel, used thoroughly did the curing. There is nothing too good to say in favor of Hyomel. It cured my nasal catarrh."—Henry L. Britton, Frost St., Eaton Rapids, Mich.

Hyomel (pronounced High-o-me) cures catarrh, because it gets where the germs are, and destroys them. It is made of Australian eucalyptus, mixed with other healing antiseptics. When breathed over the irritated and inflamed membrane, it gives relief in two minutes.

Used regularly for a few weeks it will build up and heal the germ-infested membrane and drive out catarrh.

If you own a small Hyomel pocket inhaler, you can get a bottle of Hyomel at druggists everywhere, on at Gilbert's drug store for only 50 cents. If you do not own a Hyomel inhaler, ask for a complete outfit, the price is \$1.00. It is guaranteed to cure catarrh, coughs, colds, croup or sore throat or money back.

provided the prisoners with the saw will be prosecuted. The jailers have begun an investigation, and it is said have some strong evidence.

### Flynn's Homer Beats Cubs.

Chicago, May 9.—Flynn's home run with two men on bases shortly after Brown relieved Cole in the eighth gave Pittsburgh the victory. Cole pitched well until the eighth when Pittsburgh made five runs before Brown, who relieved him, retired the side. The locals batted Camnitz out of the box in the fourth. Klunk caught his first game since the world series of 1908.

### Tigers Win Slow Game.

Detroit, Mich., May 9.—Detroit won a featureless game from St. Louis, bunting hits off Graham in the second, a muffed fly by Schweitzer helping them, and making a couple passes, a single and some base running count against Bailey in the seventh. Parnell was hit hard in the fifth and sixth but escaped much scoring.

### Naps Going Up.

Cleveland, May 9.—Cleveland defeated Chicago 2 to 0. A base on balls, followed by two singles and a sacrifice, gave the visitors their runs in the opening inning. Smith tightened up thereafter and allowed but one hit. Falkenberg was also in fine form and kept the locals' hits well scattered. Kruger spoiled Chicago's chances of scoring in the seventh by making a sensational running catch of Payne's drive to left field.

### Yale Captures Annual Meet.

New Haven, Conn., May 9.—Yale won the dual track meet from Princeton by the score of 59 5-6 to 46 1-6. A high wind blew across the track. Running in the face of the distance runs were surprisingly good. No records were broken, but the performance of George Calhoun of North Attleboro, Mass., in winning the low hurdles for Yale in 25 seconds, and the hammer throw of 162 feet 6 inches by Carroll Cooney, the Yale football guard, in winning the weight event, were the best performances of the day.

Capt. Nelson of the Yale team won the pole vault handsily with a leap of 12 feet flat, with Bobby Gardner, the amateur golf champion, second. The half mile furnished a decided upset when Max Kirjassoff, of Yale, beat out a fast Princeton field, including Frantz and Whitley, in 2 minutes flat. Dwight, the Princeton veteran hurdler, nosed out victor in the high event by 3 inches from Chisholm, who turned the tables on him in the low.

R. Cooke of Princeton captured

both sprints in the tip-top time of 10 1-5 and 22 2-5 seconds. The meet of the veteran George Whitley of Princeton in easily romping home a winner in the mile run in the time, 4 minutes 30 2-5 seconds, was one of the classic features of the meet. Princeton took six firsts to seven for Yale. Yale scooped eight seconds to three for the Tigers, and Yale corralled eight thirds to five for Princeton. In the pole vault and high jump the points were divided. Britton S. Weeks of New York was referee.

### Tigers Best the Welles.

In a game that was nip and tuck all the way, the Tigers defeated the Welles yesterday morning at League park in one of the best amateur games of the early season. The score was 5 to 4. In the seventh inning the Welles were leading by one score, but their hopes were when Willett swatted one for a three bagger, scoring two men. Street twirled a steady game, while Switzer did good work for the Welles. The Welles lined up; Wagner, c; Switzer, p; Evans, 1b; Gourieux, 2b; J. Fuller, 3b; Carlton, ss; Orr, cf; C. Fuller cf; and Gallagher, rf.

## BUSINESS WORLD PROVES CAUTIOUS

COMMODITY PRICES ARE SLIGHTLY DECLINING.

Will Stimulate Exports and Discourage Imports to That Extent.

HENRY CLEWS WEEKLY LETTER

New York, May 9. (Special.)—A decided reaction developed on Wednesday from the pessimistic temper which had dominated the market for several weeks. This recovery was based upon the rumored successful negotiations for placing important American bond issues abroad, and may have been accelerated by the covering of a too extended short interest. Such a practical display of European confidence in our securities could not but have a stimulating effect; inasmuch as it at once lifted a heavy load of doubt from those responsible for the financing of our large railroad enterprises, and paved the way for renewed activity. Just what these European takings of our new railroad bonds will amount to is not yet disclosed; but they are known to be in the aggregate, some estimates reaching as high as \$120,000,000, and this relief will have a far-reaching effect in several directions.

Its immediate influence was most noticeable in foreign exchange, which declined sharply under the anticipated freer offerings of finance bills. London led the advance, New York promptly following; though some of the gain was subsequently lost owing to the illness of King Edward. All apprehensions of a further serious loss of gold have disappeared; the probability being that the gold efflux has ended for the present season. Our foreign trade has now been abnormal for more than a year, and the continued deficiency in exports could only be readjusted by shipping either gold or securities or merchandise. Enough gold has already gone, considering the present home demands upon our banks, and the possibility of further large shipments caused an undercurrent of uneasiness in banking circles. As a natural outward movement of merchandise had been rendered impossible by the holding back of our principal exports for high prices, the only alternative was shipping securities, the obstacle to which had been the high level of this market. European purchases were doubtless encouraged by the recent decline in security values and the test which it imposed. One good effect of this expression of European confidence will be the industrial stimulus it will afford here. Our railroads are being driven into very heavy outlays for handling a rapidly growing traffic, and this large influx of foreign capital will inevitably increase the demand for railroad material and afford much added employment to labor.

### Business.

In business circles a cautious feeling wisely prevails. Commodity prices are declining, and there has been a lessened demand for iron and steel, for textiles and for many other products. The decline in commodities has been partially due to the approach of a new harvest and to the consequent check upon speculation; and the fact that prices are receding naturally causes buyers to hesitate until satisfied that reaction has reached its limit. April probably witnessed a climax in the high price movement. No doubt as soon as confidence returns in regard to values orders will come in more freely, but it must be remembered that the recent agitation against the high cost of living has had more or less effect in restraining consumption. The business situation, however, is generally sound. There is little or no serious over-production, and prospects are that as soon as a reasonable readjustment has taken place in that which has been accomplished in that which has been accomplished in a fresh forward movement will be initiated. Much depends upon the crops. They are the key to the entire situation, financial, industrial and commercial. Thus far the outlook in this respect is fairly satisfactory. Damage reports have unquestionably been greatly exaggerated, and there is every reason why farmers should bend every effort this season to obtain as large a yield as possible. Crop failures would, of course be disastrous this year. But if the country only secures nothing better than full average yields we may be sure of another prosperous year.

One effect in the decline in prices will be to stimulate exports and check imports, thus restoring our

foreign commerce to a more nominal basis. Our farmers being financially strong, held back grain, cotton and all products to an unusual degree for the purpose, of course, of securing the highest possible price. Indications are that this surplus must now come upon the market. Prices of agricultural products have receded materially from the top level, weakening the confidence of holders, and the new crops are only three or four months distant. The outlook is now for larger exports of grain and cotton, which will add to the supply of commercial bills, and thus render still more remote any possibility of gold shipments. It is now evident that many of the abnormal features resulting from the late boom are correcting themselves, and gradually but surely readjustment will bring us

into more normal conditions.

### Stocks.

The outlook for the stock market has been distinctly improved by the placing of these new issues and by the readjustment which is going on in the commercial markets. Trade reports from the West, though conservative, are generally encouraging. It is true there has been much speculation in land and other directions, but these movements do not appear to have reached a danger point, and the hand of restraint is already being imposed by the more prudent class of interior bankers. The best authorities state that as yet the business situation has not been endangered by these excesses. A distinctly better tone is observable in the European money markets, and the lower rates for money existing over

there will facilitate the distribution of American bond issues which have generally been placed on attractive terms. The monetary situation here also is improving, the stringency incidental to May disbursements having been passed without an untoward development. Our leading stocks have shown marked declines since the first of January, and are now selling at rates that should be attractive to investors. Securities have been passing from weak into stronger hands; the situation has been thoroughly tested; and there is now a firmer basis for confidence than has been seen any time during the current year.

## FATE PLAYS A PART.

"The best laid plans of mice and men gang aft agley." Fate has infinite means for the accomplishment of its purposes and it frequently substitutes a factor in the situation that alters every human scheme.

The Liberals of England won their election on appeal to the country, when the Lords rejected the budget. Then it was passed, and the world stood at attention, while the political forces of the Kingdom aligned themselves for the reformation of the upper house, which might transform English politics.

Then Edward died and the country saw a new king, an unknown, untitled quantity, elevated to the throne. Immediately all parties ceased their scheming and with one consent they cried fair play to the new king, and entered upon a truce that should last a year and a day.

What may happen in the meantime? With twelve months for calm deliberation and discussion of the situation; twelve months for the new king to display tact, which may amalgamate hostile political factors, or the lack of it, which may widen the breach or cause popular dissatisfaction with the throne, who can say what will result from this unexpected intervention that halts the radical program of the British government?

## A CELESTIAL FLIRT.

Foiled in the hope a head-on collision between Halley's comet and the Earth, and bereft of all possibility of apophyxiology, while passing through its tail, we shall cling tenaciously to the astrological possibilities of this strange astral phenomenon. Who will deny that this Merry Widow of our solar system, who by her giddy whirl has interrupted the serene dignity of the dance of the spheres, has been making blasé old Earth blow hot and cold for three months. Early this morning the swept her train across the path of her rival, Venus; May 17 she will balance with Earth and whirl between us and the sun, wrapping her gorgeous trail around her clumsy partner, and make off gaily on her long eccentric career, to return and frighten our grandchildren 75 years hence. We never cottoned to a fancy dancer on a ball room floor, terrestrial or celestial. The comet won't come within 18,000,000 miles of us when she crosses our path; but we have stepped on our partner's toes more than once, trying to avoid collisions, just as erroneously anticipated as this one; he is a case of a reckless individual was introducing a new figure.

No wonder the earth got goose flesh, chilled and shook! No wonder those elephants stampeded at Danville, Ill., and the decorum of the senate majority was disturbed!

Friday, the thirteenth, comes with the comet headed full tilt straight at us, and we don't know that anyone will feel offended, when she turns her back on us and kicks her train right in the face of Old Earth. He's

got no business flitting this way, anyhow.  
Here is the comet's itinerary:  
May 9—Comet crosses Venus' path retreating.

May 10—Comet rises, 2:24 a. m.; distance from earth, 33,000,000 miles.

May 12—Comet rises 2:32 a. m.  
May 14—Comet rises 2:40 a. m.  
May 15—Comet rises 2:49 a. m.  
May 16—Comet rises 3:08 a. m.; 7 degrees south of star Alpha Arietis.

May 17—Comet rises 3:32 a. m.; distant 12,000,000 miles, about its nearest; came within half that in 1835.  
May 18—Earth and comet passing; comet in conjunction with the sun on the nearer side, and at the same time at descending node, the two resulting in a transit of the comet across the sun's face, occurring between 1:31 and 1:45 a. m., eastern time, hence invisible in this country, but between 6:21 and 6:45 a. m., Greenwich time, hence visible in Europe, Asia and Africa. Earth and moon now proceed to pass through the comet's tail, but without result.

May 19—Comet again in evening sky, appearing ever higher in west, and moving rapidly; today 3 1/2 degrees north of Aldebaran.  
May 20—Comet sets, 8:11 p. m.; enormous size.  
May 21—Comet just where it was among the stars about October 1; today passes close to Gamma Gemini. Comet sets, 9:12 p. m.

May 22—Comet sets, 9:57 p. m.; passes 7 1/2 degrees north of Procyon.  
May 23—Comet sets, 10:28 p. m.  
May 24—Comet sets, 10:34 p. m.  
May 25—Comet sets, 10:55 p. m.  
May 26—Comet sets, 11:06 p. m.; crosses beneath earth's path, at a distance therefrom of about 6,000,000 miles, in retreating into space.

May 27—Comet sets, 11:17 p. m.  
May 28—Comet sets, 11:22 p. m.  
May 29—Comet sets, 11:23 p. m.  
May 30—Comet sets, 11:29 p. m.; now gradually approaches the sun again, as seen from the earth, and fades away as it retires into space.

July 7—Comet crosses Mars' path retreating; again retires behind the sun during the month of July.

July 27—Earth passes the perihelion point of comet, where it was April 19.

August—Comet passes again into morning sky, but visible only in telescopes.

September 11—One year since discovery of comet by Wolf, of Heidelberg, then distant 350,000,000 miles.

May 20, 1911—Comet crosses Jupiter's path, in retreat.  
A. D. 1985-1989—Halley's comet next due.

## Some Stories Around the Town.

After spending Sunday in the city, John Lynch returned to his home in Cairo this morning by rail although he walked to Paducah. Lynch is a student in the Cairo High school, and started out last Saturday morning with the intention of finding something exciting. He caught freight train and intended to get off at East Cairo, but was carried to Wickliffe before he had an opportunity to dismount. From Wickliffe he started walking towards Paducah, and reached Paducah Saturday afternoon about 4 o'clock, having covered the distance of 42 miles since 5:30 o'clock Saturday morning. He spent the night with Pains King, 2700 Broadway. He is well known to some of the Paducah athletes, who competed with Cairo in contests.

In a one-act comedy drama, entitled "A Race With Time," Flossie and Dosette Raymunde, sisters, and Leo Hall, barrel jumper, who appeared at the Kentucky theater last week, played in hard luck at midnight Saturday when a gasoline launch headed for Cairo, broke down one mile below Paducah and they were forced to walk back and take the Cairo train at 9:10 o'clock Sunday morning. The vaudevillians, who concluded their engagement here on Saturday night, were booked for a matinee at a St. Louis summer garden Sunday afternoon, and as there was no train to take them there in time for the performance, they hired a launch after the show and packed their baggage in it. Full power was applied in an effort to reach Cairo in time to catch a northbound train. One mile below here the engine of the boat went dead and they were forced to walk back to Paducah through fields and more fields. They did not reach St. Louis until time for the evening show.

The ball player should always remember that a hit in time saves nine.

## VOICE OF THE PEOPLE.

**Proclamation of Health Department.**  
The prevention of typhoid fever, tuberculosis, stands out clearly as the most important problem in sanitation now confronting our citizens. Let us have a clean-up week, beginning now, of the accumulations of the winter waste and refuse.

During the winter this accumulation is not so serious, for decomposing matter and filth of all kinds as a rule remains harmless owing to its frozen condition. As the sun's rays become warmer decomposition takes place, disease is spread and they become breeding places for flies, the most common and least feared of all pests, yet the most dangerous of spreading disease. If it is systematically cleaned the city will be more sanitary during the summer months and there will be a marked decrease of contagious diseases, especially those spread by the fly and caused by mosquitoes. Many precious lives can be saved and much sickness and distress prevented.

The canal zone is an excellent illustration of what can be done by a thorough clean-up, where the prevailing diseases have been entirely eliminated and typhoid fever greatly reduced.

Start early to weed gardens and vacant lots and the work of keeping them free during the summer will be lessened.

Weeds are not only unsightly but are breeding places for the mosquito. Especially cans and bottles should be carefully carted away as an ordinary tomato can will hold sufficient water to breed enough mosquitoes to infect an entire city block. See that the cellars are clean. A coat of white wash is inexpensive and will kill many insects. Do not throw rubbish on vacant lots.

Signed, HEALTH OFFICER.

## TOO DRUNK TO KNOW

EUGENE BRIGHT SAYS HE IS IN THE DARK.

Arrested on Charge of Passing Bad Check for Suit of Clothes in Paducah.

Eugene Bright, 26 years old, a prominent young man of Fancy Park, Ky., is in the county jail here awaiting trial this week in Magistrate C. E. Emery's court on a charge of grand larceny, preferred by B. Weillie & Son, Clothiers. Bright, who is held on this charge, is accused of forging a check of \$43.75 on Jim Cash and giving it to the clothing firm last Thursday in payment for that amount of clothing and furnishings.

Detective T. J. Moore, accompanied by Sheriff George Houser, arrested Bright early Saturday night at the home of Thomas Willett, 8 miles out on the Lovelaceville road. Bright was busy milking a cow when the officers arrived, and when confronted with the warrant, he said he was drunk and remembered nothing of it.

Bright came here Thursday and after picking out a choice line of clothing at Weillie's, drew a check on the Fancy Farm bank and signed Jim Cash's name, it is alleged. Cash does a large amount of trading here and his checks are readily accepted. The forgery was discovered the following day and a warrant was issued. In the meantime Bright had spent the night at a boarding house here and Friday morning he boarded the Cairo train, telling his friends he was going to St. Louis. This was a ruse used in an attempt to conceal his whereabouts, and he left the train at Maxon Mills, the first station, and from there drove to the home of Mr. Willett. His clothes were locked in a trunk and were brought to Paducah by Sheriff Houser and Detective Moore. Bright says he had \$25 when he came here and got drunk. He remembers nothing whatever of the transaction at Weillie's, and says he was puzzled to find the clothes the next morning. He was remanded to the county jail in default of a \$300 bond.

## EXPLOSION KILLS FIFTEEN PEOPLE

POWDER MILL AT HULL, CANADA LETS GO.

Baseball Crowds Rushed to Witness Fire and Many

SUNDAY EVENING TRAGEDY.

Ottawa, May 9.—An explosion which late Sunday afternoon wrecked the plant of the General Explosives company of Canada, near Hull, four miles from this city, killed 15 and injured 50. The country for miles around was laid waste and many small dwellings in Hull, a mile away, were flattened to the ground.

A baseball game was on near the works and when fire was seen in one of the small buildings of the plant, the crowd swarmed up the hill to get a better view. Warning of the danger came in two minor explosions, a shower of sparks and fragments of the wrecked building fell among the spectators, and there was a rush to get out of what was considered danger. Some were aware of the possibilities of danger when the main magazine was reached, and pleaded with the crowd to go farther back, but many stood within 1,000 yards of the burning buildings. They were kept on the qui vive by more detonations which sent up showers of burning brands.

The baseball game broke up and the remainder of the spectators and players joined the crowd at the fire. Then the main magazine exploded, two stunning detonations followed. Everything within a radius of a mile and a half was torn and shattered. Giant trees were snapped off close to the earth; barns and dwellings were converted into kindling and even in Ottawa, four miles away, hundreds of plate glass windows were broken.

The scene where the crowd stood resembled a battlefield. Headless, armless and legless bodies were lying about among scores of unconscious forms. To the few who retained consciousness it appeared as though over a hundred were killed.

Thought Comet Had Come.  
The silence which followed the final death dealing blast was more terrifying than the cries and moans which came with the return to consciousness of the injured. The shock brought thousands of terror-stricken people into the streets of Hull. Some thought it an earthquake while others cried out that the comet had struck the earth.

In the section of the city nearest the magazines, were found forty small frame dwellings, shattered, and many injured and imprisoned in it. It was fully an hour and a half after the explosion that word came to this city of the disaster near the powder works. Assistance was rushed to the scene and the frightfully injured were carried to hospitals until there was no more room.

Ottawa Terror Stricken.  
In this city the terror inspired was scarcely less than at Hull.

Rideau Hall, the official home of Earl Grey, and the buildings of the parliament, had the windows blown out. The parliament buildings were damaged.

From Rideau Hill the whole vice-regal establishment fled panic-stricken to the street.

Earl Grey ordered the troops to help the authorities at Hull. The building in which the main explosion occurred was built of stone. Fragments weighing half a ton shot through the a quarter of a mile, shattering the frame dwellings of the working men.

In their home north of the works two sisters were killed while sitting at the supper table. John Blanchfield was sitting with his wife in the door when a fragment snuffed out his life, but left her unharmed.

The electric light works was disabled and the city of Hull is in darkness. It is certain that some of the injured will die.

An amusing scene on the levee yesterday afternoon when the W. W. was preparing to depart for the Cumberland river resulted in a roar from the large crowd gathered at the top of the levee. The stage of the boat had been raised and just as the boat was preparing to back out a country man ran wildly down the hill to catch her. Near the brink of the river he slipped on the cobblestones and fell. Gathering himself together he sighted a plank just to fit the occasion and with an uneasy balance he boarded the boat. Then he saluted the crowd.

## FORMER WORKMAN BECOMES HEAD

J. H. NASH'S PROMOTION IS ANNOUNCED.

Is Superintendent of Burnside Shops of Illinois Central.

RAPID RISE OF POPULAR MAN.

Official confirmation to the story that he will become superintendent of the Burnside shops of the Illinois Central railroad was given today by Mr. J. H. Nash, master mechanic of the local Illinois Central shops. The appointment will become effective May 15, and Mr. Nash will leave Paducah the last of this week for Chicago the last of this week for Chicago as soon as his successor, whose name has not been announced, arrives to assume charge of the local shops.

By the merited promotion in the service, Mr. Nash returns to be superintendent of the shops, where he began in the service of the company about fourteen years ago as a journeyman. The position of superintendent is one of the most important of the system, and places him in direct line for promotion to the highest offices. The Burnside shops are the largest on the Illinois Central system, and ranked as among the largest railroad shops in the country.

In his new position he will have 3,000 mechanics under him, and the bulk of the locomotive work and the freight and passenger car work will be under his supervision. It is the only shop on the system where passenger coaches are built and rebuilt. He will succeed Fern Caldwell, who has held the position temporarily for several months. For several months there have been persistent rumors that Mr. Nash was slated for a better berth.

Hard work, persistence as well as native ability are responsible for the rapid rise of Mr. Nash, who in fourteen years has climbed from a workman to superintendent of the most important shops on the system. His knowledge of mechanics has been gained by practical experience, but it is thorough, and his ability has made him close personal friends among the higher officials who have watched his work carefully.

At his home in Terre Haute, Ind., Mr. Nash gained his first experience in railroad work as an apprentice boy for the Vandalla railroad. He acquired experience in various railroad shops and in 1896 entered the employ of the Illinois Central as a workman in the Burnside shops. He rose to the position of machine foreman and in 1901 was removed to East St. Louis as general foreman of the shops. After two years of service he was made general foreman of the company's larger shops in Waterloo, Ia.

With the expiration of two years he was advanced to the position of master mechanic of the St. Louis division with headquarters in East St. Louis. October 1, 1907, he was made master mechanic of the Paducah shops, the next largest of the shops, succeeding R. E. Palmer. Although this is regarded as the hardest shop on the system to superintend, Mr. Nash has done it splendidly and now receives his promotion as recognition. The Paducah shops are considered a test of ability and the master mechanic is usually lowered in rank or promoted.

Mr. Nash stated positively that when he was in Chicago last week his successor had not been decided upon, and his name has not been announced yet. There is much speculation, but many employees expect Joe F. Walker, formerly general foreman of the local shops, to be returned as master mechanic. He is a Paducah boy, learned his trade at the local shops, and left Paducah last August to accept the berth of master mechanic at East St. Louis.

In the operation of the large shops in Paducah Mr. Nash has been firm in all of his decisions, but at the same time he has gained the respect of all the employees, who regret to see him leave. His family will not leave for Chicago until the last of June.

## HOME TREATMENT FOR TUBERCULOSIS.

Less Expense Involved Than by Other and Less Effective Methods.  
Hundreds of people have cured themselves of Tuberculosis by a very simple, inexpensive home method—fresh air, careful diet and Eckman's Alterative has cured many people right in their own home, where their dear ones encourage them and give them that tender home care which money cannot buy.

Think what this means. No special diet; no sanatorium charges; no traveling expenses; no expensive egg-and-milk gorging. Eckman's Alterative has cured many people right in their own home, where their dear ones encourage them and give them that tender home care which money cannot buy.

Sanatorium treatments build up the body, but do not destroy the disease germs, so that after the sanatorium treatment is discontinued (you falsely believing that you are cured) galloping consumption often develops. Be honest with yourself. Have your physician examine you. NOW. He'll probably recommend the usual fresh air, egg-and-milk or sanatorium treatments. Perhaps he'll tell you your case is incurable. Then after you have thoroughly investigated our affidavits and testimonials—feeling sure in your own mind that if Eckman's Alterative has cured so many others it surely must help you—start taking it. Your improvement should be gradual but certain. But don't think your cure is complete—KNOW IT! Have the same physician examine you again. If you have been faithful to Eckman's Alterative he will be amazed at your improvement, if not reporting an absolute cure. Eckman's Alterative is good for all Throat and Lung troubles, and is on sale in Paducah by List Drug Co., Druggists. It can also be obtained at, or procured by, your local Druggists. Ask for Booklet of Cured Cases or write for Evidence to the Eckman Laboratory, Phila., Pa.

**Guire and Hale Go To Work.**  
By starting to work immediately, Bert Guire and Albert Hale, who were in jail nearly a month for the alleged murder of "Red" Thompson, say they intend to show the world they are not bad men like the public believed. Before they were released from the county jail, W. Babbs, of Round Knob, Ill., offered the two boys jobs in a clay pit. They remained in the city yesterday morning, and until the jail to say goodbye to the officials. Yesterday afternoon they left for the clay pit, which is a few miles from Metropolis, to begin work. Both announced that they were through with hobnobbing, and said they would pay their fare or walk the next time they wanted to travel.

**Picture of "Red."**  
Attorney David Browning, who led the work in finding "Red" Thompson and presenting him to his mother, received a picture of the supposed murdered boy yesterday. The picture shows a view of Thompson standing on a street. He wears his hat and it is impossible to see his entire face, but his nose and chin resemble closely the features of the dead boy.

## ASCENSION DAY

OBSERVED AT BROADWAY METHODIST CHURCH.

Knights Templar Attended Services in a Body Yesterday Morning.

The services Sunday morning at Broadway Methodist church were in commemoration of Ascension Day and were especially impressive. The Paducah Commandery, Knights Templar attended in full regalia and conducted a portion of the service. Dr. Sullivan preached a sermon appropriate to the occasion, emphasizing the "Ascending Scale of God's Place for Unfolding his Truth." That victory comes after toil and suffering. That the heroic spirit seen in defense of truth, immortality and life are brought to light by the gospel. And that Christ is coming at the end of the world to claim his own, the Second Ascension, and will carry his saints with him. There were six additions to the church. 109 men were present at the Men's Bible class at 9:30 a. m.

There will be no service at the Broadway Methodist church next Sunday except Sunday school, at the usual hour, and the Epworth League service at 7 p. m. The Rev. G. T. Sullivan will leave Tuesday afternoon for Asheville, N. C. to attend the General Conference of the M. E. church, South, and will be absent over Sunday. Pastor services will be held Wednesday evening by the Rev. W. J. Meccoy, and Wednesday by the Rev. A. S. Scott.

## Charged With Robbery

In less than a week after being acquitted in the circuit court on a robbery charge, Jim Taylor, who was arrested at 1 o'clock this morning by Police Sergeant Lige Cross on a charge of gambling, is being held on another robbery charge. This time Jim is accused of knocking down and robbing S. W. Brooks, a prominent farmer of Marshall county, of \$110. The robbery is said to have taken place Saturday night near Second and Washington streets.

## ESCAPED CONVICT IS CAPTURED IN PADUCAH

Patrolman Emile Gourieux effected an important capture when he ran upon Roy Dunlap, alias Charles Nelson, alias Anderson, colored, on the outskirts of the north side at 11 o'clock yesterday morning. Dunlap is an escaped convict from the state penitentiary at Chester, Ill., and has been at large for several months. A reward of \$25, that was offered, will be paid Patrolman Gourieux for the arrest. Chief of Police Singery received a telegram from C. H. Anderson, warden of the penitentiary, at 1:30 o'clock this morning stating that an officer would be sent here for Nelson, who was convicted under that name. If the negro refuses to return it will be necessary to apply for requisition papers.

**Eastern Star at Mayfield.**  
A new chapter of the Eastern Star will be installed next Saturday in Mayfield. Members of the order from Paducah and Fulton will attend the installation. The new chapter will begin with a large number of enthusiastic members. Mr. E. W. Whittemore, worthy grand patron, will be in charge of the installation.

**PROFITABLE MEETING IS HELD AT SALEM CHURCH.**  
The Rev. W. W. Adams, of Mayfield, assisted the Rev. W. J. Naylor at a well attended missionary rally at Salem church Saturday and Sunday. Next Saturday and Sunday a meeting will be at Lone Auk.

**Reception Postponed.**  
Owing to the large amount of work necessary to place the new Central fire station in proper trim for the reception of visitors, Fire Chief James Wood has postponed the public reception at the new fire station from next Wednesday to May 18.

**At the Star.**  
The feature act at the Star theater commencing Monday afternoon, will be Dave Lubin & Co., consisting of four black face artists, harmony singers and dancers, in a southern play-lette, entitled "The Hummin' Cooon," with special scenery and electric effects.

This act is said to be the greatest act on the Hopkins circuit. Mr. Deeburger claims it to be the most elaborate and costly act he has ever put on at the Star.

O'Neill & Thompson are a decided hit in their beautiful, refined Irish comedy drama, entitled, "My Rose," introducing some delightful music and good singing.

Miss Florence Arnold, the sweet soprano, one of St. Louis's most popular singers, singing her own songs, featuring "The Loss from County Mayo," is sure to be a go with the Star patrons.

A new illustrated song by Frank Long and the motion pictures go to make up what will be an exceptionally fine program.

The price of admission will be 10 cents, children 5 cents.

Owing to the absence of the pastor, the Rev. D. W. Fooks, who was called to Fulton, the Rev. W. S. Wright filled the pulpit yesterday. His services were interesting and attended by large congregations.

**New Vaudeville at The Kentucky.**  
Frank Rutledge and company, appearing in a very laughable comedy sketch, "Our Wife," head the entire new vaudeville bill at the Kentucky theater for the first three days of this week.

Bessie Leonard, who made a positive hit at Delmar Garden, St. Louis, last week, is also on the bill, making the stop on her way to River View Park, Louisville, where she appears next week. Miss Leonard is a rapid fire character comedienne.

Barry and Nelson have an interesting act and do a lot of clever acrobatic work well mixed with good comedy.

## THE REASON WHY

# Vinol

## IS THE BEST STRENGTHENING TONIC

for Feeble Old People, Delicate Children, Weak, Run-down Persons, and to Counteract Chronic Coughs, Colds and Bronchitis, is because it combines the two most world-famed tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron, without oil or grease, tastes good, and agrees with every one.

We return your money without question if Vinol does not accomplish all we claim for it.

W. B. McPHERSON, Druggist, Paducah.

Twelve Minutes Saved.  
"Experience," said Mark Twain in the smoking-room of the Bermudian, "makes us wise, but it also makes us hard."

"Consider the old, experienced man in the busy restaurant. He took a seat, looked around him and pointed to a well dressed gentleman who had not yet been served, he said to the waiter:

"Walter, how long has that gentleman been here?"

"Twelve minutes," the waiter answered.

"What's his order?"  
"Porterhouse and French fried, sir, with mince pie and coffee to come."

"The old man, hardened by experience, slipped a quarter into the waiter's hand.

"Walter," he said, "I'm in a hurry. Put on another porterhouse and bring me his."

## Advice for the Waiter.

Jack Barrymore dropped into a Broadway restaurant the other day and fate assigned to him a waiter who, to quote the actor, was "solid ivory from the chin up."

Failing to get anything he ordered, he at last lost patience.

"Walter," he said, "you are the ultimate thing in punk dispensers of gastronomic provender! Why don't you chuck this job and try piccolo-playing at the opera?"

"I no can play-a da peccalo," said the waiter.

"That's all right," replied Barrymore. "Why waste all your incompetence in one place?"—From Success Magazine.

## MOTHER'S FRIEND

## A LINIMENT FOR EXTERNAL USE.

Baby's coming will be a time of rejoicing, and not of apprehension and fear, if Mother's Friend is used by the expectant mother in preparation of the event. This is not a medicine to be taken internally, but a liniment to be applied to the body, to assist nature in the necessary physical changes of the system. Mother's Friend is composed of oils and medicines which prepare the muscles and tendons for the unusual strain, render the ligaments supple and elastic, aids in the expanding of the skin and flesh fibres, and strengthens all the membranes and tissues. It lessens the pain and danger at the crisis, and assures future health to the mother. Mother's Friend is sold at drug stores. ## SAY METHODISTS MAY COMPROMISE

## MEETING OF EDUCATION COMMITTEE EAGERLY WATCHED.

Whole Conference Prays for Guidance in Selection of Bishops—Prayers for King Edward.

## VANDERBILT QUESTION ARISES

Asheville, N. C., May 9.—Sunday was a day of great preaching with the Methodists here, several of the bishops and prospective bishops and two of the fraternal messengers occupying the pulpits of several Protestant churches of the city and neighboring towns. The venerable senior Bishop Wilson delivered one of his mighty discourses at the Central Methodist church in the morning on "The Second Coming of the Messiah," which one of the old brethren said the "hairs" could chew on to their hearts' content. The church would not hold the crowd that waded through the rain to hear him, as many of the delegates thought this was one of the last opportunities they would have for enjoying such a treat.

Dr. W. B. Murrah, president of Millsaps college, Jackson, Miss., preached at Murphy, N. C., about 75 miles from here, and Dr. Collins Denny at Hendersonville, N. C. Bishop Hoss was indisposed and would not venture out, remaining in his room all day.

A memorial service was held for King Edward at the Central Methodist church, at which the Wesleyan ambassador to this general conference, Dr. Symonds, preached, and addresses were made by Bishop Hendrix and Dr. Young, the ambassador of the Canadian Methodists.

## Denny Sure of Bishopric.

At 4 o'clock services were held not only here, but all over the south, that the Lord would guide the conference in the election of bishops. It is thought that six will be elected, but this will not be settled for a day or so.

The election will take place Thursday or Friday of this week, on the very day the Vanderbilt question is before the conference. Dr. Collins Denny, of the Baltimore conference, is the only man that everybody says will go in on the first ballot. None of the forecasters will predict the election of more than one man on that initial ballot. Twenty or more men will be voted for, some for the purpose of putting them before the eye of the church for the episcopacy and eight years from now. Dr. Murrah, Dr. Dubose, Dr. James Cannon, of Virginia; Dr. Waterhouse, of Virginia; Dr. Moxson, of Texas, and Dr. Ainsworth, of Georgia, are the most conspicuous men after Dr. Denny.

The air is thick with rumors of

## MOTHERS WHO HAVE DAUGHTERS

Find Help in Lydia E. Pinkham's Vegetable Compound

Hudson, Ohio.—"If mothers realize the good your remedies would do delicate girls I believe there would be fewer weak and ailing women. Irregular periods and painful troubles would be relieved at once in many cases. Lydia E. Pinkham's Vegetable Compound is fine for ailing girls and run-down women. Their delicate organs need a tonic and the Compound gives new ambition and life from the first dose."—Mrs. GEORGE STRICKLER, Hudson, Ohio, R. No. 5, Box 32.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

## Young Girls, Heed This.

Girls who are troubled with painful or irregular periods, headache, aching, dragging-down sensations, fainting spells or indigestion, should take immediate action to ward off the serious consequences and be restored to health by Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by its use.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

compromise on the Vanderbilt question. This may be the result. Much depends upon what the committee on education does. If it holds a secret session and does not allow one to be present while Bishops Kirkland and Hendrix and Chancellor Hoss are speaking, the debate may be precipitated before the conference. An effort will be made to prevent the leaders in this controversy from confronting each other before the committee. All three of them have expressed a purpose of being present.

## Tennesseans Active.

It is probable that the committee will formulate its report on Wednesday and present it to the conference on Thursday. It will lie over one day and come up for action on Friday. If it is favorable to the church it will have little opposition, so it is believed. If it is favorable to the board of trust, it will provoke the battle royal of the session. Judge O'Rear, of Kentucky; Judge Linebaugh, of Oklahoma; Judge Nat Harris, of Georgia; Judge Creed Bates, of Tennessee; Dr. James Cannon and other strong ministers will probably be the speakers for the church side. Chancellor Kirkland is a member of the conference, and he and Dr. Winton, editor of the Nashville Advocate, and other men of conspicuous ability will probably represent the board of trust.

## KING EDWARD

(Continued From Page One.)

days and nights a constant stream of citizens filed past the coffin of the great commoner, Gladstone.

Before being taken to Westminster the body will lie in state in the throne room at Buckingham palace. King Edward's casket will be fashioned out of oak grown in the royal forest at Windsor. It will first be lowered to the vault beneath the chapel floor of St. James chapel, Windsor Castle. Afterward, when the permanent tomb has been prepared, it will be removed to Albert chapel.

Queen Alexandra and King George conferred with various officers of the state and household concerning the funeral arrangements after holding service in the royal chapel at Buckingham palace, which the late king always attended when in residence there.

## Still Lies in Bed.

The date of the burial was tentatively fixed for May 20, although it may be May 18, the date on which Theodore Roosevelt is scheduled to deliver the Romanes lecture at Oxford university.

The members of the royal family, it is believed, would prefer there should be no lying in state, but it was represented to them that the wishes of the people were so strongly for this that they were willing to waive their personal inclinations. King Edward still lies in the bed where he died, clothed only in night clothes, with his hands crossed on his breast.

Queen Alexandra visits the chamber frequently, appearing greatly worn and tired. King George and Queen Mary spend most of the day with her. After chapel the family again looked on the body for a few minutes.

## Salvation Army Services.

An impressive incident Sunday afternoon illustrated Queen Alexandra's desire to show consideration for British subjects of every class. General Booth sent a message that he Salvation Army wished to show honor to Edward VII by holding a service by the palace and Alexandra gave permission. At 4 o'clock a large band, wearing red jerseys and carrying silver instruments and banners with scarfs of crepe, pushed through the crowd to the palace enclosure. The big iron gates were opened and the band formed a circle under the windows.

First they knelt, while the leader prayed and then they sang "Nearer My God to Thee," "Abide With Me" and "Angels Ever Bright and Fair." Finally they marched out, singing "Onward, Christian Soldiers."

## Crowds Around Palace.

The blinds were closely drawn, but the attendants say that Queen Alexandra left her apartments, with Princess Victoria and her ladies in waiting, and listened to the singing from behind them.

The crowds around the palace were undiminished as well as at Marlborough house.

All political discussion foreshadows a truce and the shelving indefinitely of the struggle between the house of commons and the house of lords. The bishop of Worcester, preaching in the cathedral, said that patriotism and chivalry demanded that contentious questions be put aside by the statesmen of all parties for a year at least.

The house of commons will meet on Wednesday, when Speaker Lowther returns, to receive the address from the throne.

Premier Asquith and A. J. Balfour, leader of the opposition, will reply. Mr. Asquith and Reginald McKenna, first lord of the admiralty embarked at Gibraltar on the cruiser Enchantress for home.

## The New Court.

According to a circular issued from Marlborough house the designation of the new queen will be Queen Mary. The role she will play at the new court has been the subject of considerable speculation. As prince and princess of Wales the new king and queen lived such comparatively retired lives that it is difficult to form an opinion, but it is almost safe to assume that the

court will be far less brilliant than it was under Edward.

The latter attached the fullest weight and dignity to the ceremonial of the king's office and all state functions under his reign were invested with the pomp and magnificence he considered befitting the court of a great empire. Further he attracted to his court a brilliant array of wealthy social figures, in which American heiresses married to English aristocracy played a prominent part.

It is quite certain that great changes will be made in the constitution of the court circles, as well as among the actual officials and dignitaries of the court.

## Churches Hold Services.

The services in all the churches throughout the United Kingdom had special reference to the death of the king. Their sermons all dealt with the nation's grief, and the music was such as is customary at funeral services. Immense crowds attempted to obtain entrance to St. Paul's and Westminster, but only a small fraction was admitted.

One of the most simple observances took place in the Chapel Royal in Buckingham palace, where the royal family, with the members of the late king's household, worshipped. Queen Alexandra attended and King George, with Princess Mary and the three young princes, all wearing deep mourning, drove over from Marlborough House. Princess Victoria, who has been her mother's constant companion, also was present.

Queen Alexandra requested that the service be brief and simple, knowing that that would have been the king's preference.

Home Course  
In Live Stock  
FarmingX.—Handling Dairy Prod-  
ucts.By C. V. GREGORY,  
Author of "Home Course in Modern  
Agriculture," "Making Money on  
the Farm," Etc.Copyright, 1909, by American Press  
AssociationTHE importance of cleanliness  
in milking was mentioned in  
the preceding article. In ad-  
dition to taking care that no  
dust or dirt falls into the milk,  
it should not be allowed to stand in the  
stable any length of time after milking.  
Milk absorbs odors rapidly, and  
butter that is "off flavor" is the re-  
sult.The milk room may be in connection  
with the barn or at the well. The lat-  
ter, if not too far from the barn, is  
the best place. If the milk room is at  
the barn it should be separated from  
it by a tight passageway, with a door  
at each end to exclude all odors. The  
milk room should have windows

FIG. XVII.—CHURNING DAY ON FARM.

enough to provide plenty of light and  
ventilation. The floor should be of  
smooth cement. If the walls are of  
the same material or of brick coated  
with cement they can be more easily  
kept clean than if they are made of  
wood. The floor should be scrubbed  
often enough to keep it perfectly  
clean, and the tank should be cleaned  
out frequently.

Use of the Hand Separator.

Within the last few years the hand  
separator has come into general use  
on farms where six or more cows are  
kept, doing away with the old gravity  
system of raising cream. With the  
separator all the cream can be re-  
moved, which is impossible by any  
other method. The skim milk can be  
fed to the calves warm and sweet,  
which is a great advantage. There is  
less fat in the skim milk, but this ele-  
ment can be supplied to the calves a  
good deal more cheaply by flaxseed  
than by butter. There may be much  
less space in the milk tank, as only  
the cream will need to be kept there.  
Where a creamery is patronized a  
great deal of work is saved by having  
only the cream to haul.In selecting a separator the most im-  
portant point to look to is the ease of  
cleaning. There is a great deal of dif-  
ference in separators in this respect.  
Some are so complicated that it is al-  
most impossible to wash all parts  
thoroughly, while others can be so  
completely taken apart that washing  
is an easy task. It is not the number  
of parts to a bowl that makes a sepa-  
rator difficult to keep clean, but the  
ease with which all these parts may  
be separated, so that they may be  
reached with a brush.Some of the other points to consider  
are convenience, capacity and durabil-  
ity. The capacity will depend largely  
upon the number of cows kept. It is  
always better to get a machine too  
large than too small. The latest mod-  
els of nearly all makes of separators  
are made so that the top of the supply  
tank is little more than waist high.  
No other kind should be bought. It is  
a useless waste of energy to lift heavy  
cans of milk five or six feet high every  
night and morning. With these low  
built makes the skim milk and cream  
cans may be placed on the floor, so  
that they will require little lifting.

The Importance of Cleanliness.

Serious objection has been made to  
the cream separator on the ground  
that it lowers the quality of the cream  
and butter. In many cases there is  
ground for this complaint. Unless ab-  
solute cleanliness is the rule the cream  
is liable to be of poor quality. The  
milk and slime in the bowl are the  
best of food for injurious bacteria,  
and these multiply rapidly when the  
separator is not kept clean. Never  
rinse the bowl with cold water and  
leave it until the next milking. It can-  
not be thoroughly cleaned in this way.  
In cold weather a rinsing with cold  
water, followed by half a gallon or more  
of hot water, will do at night. At  
least once a day in winter and every  
time the machine is used in summer  
the bowl should be taken apart, wash-  
ed well and thoroughly scalded. Be  
sure to remove every particle of grease  
and dirt. Use a brush, never a rag. A  
rag is difficult to keep clean and often  
forms a home for bacteria. The so-  
called "dish rag flavor" is often found  
in butter, due to the use of a rag in  
washing the separator. Neither should  
a rag be used to dry the bowl or other  
unware. In starting to wash the sepa-  
rator and other milk dishes cold water  
should be used first to remove the  
milk, as hot water scalds the casein  
and makes it difficult to remove. This  
rinsing should be followed by a thor-  
ough washing with hot water and a  
final rinsing with boiling water. If thedishes are then set on the back of the  
stove they will dry quickly without  
rusting.

Handling the Cream.

As soon as the cream is separated it  
should be cooled down to about 50 de-  
grees as rapidly as possible. This can  
be done by putting it in a tank of  
fresh well water. Do not keep the  
cream too long before taking it to the  
creamery, not over two days in warm  
weather and three or four in cold.  
Good butter cannot be made from old  
cream.It hardly pays to make butter on the  
farm unless special customers can be  
obtained. Creameries have multiplied  
until there is one within easy shipping  
distance of almost every farm. The  
organization of co-operative creamer-  
ies has kept most markets on a strictly  
competitive basis, so that the prices  
paid for cream are usually as high as  
the market will warrant. These large  
creameries are usually equipped with  
all the latest appliances for buttermak-  
ing. They are in charge of experienced  
buttermakers and are in shape to  
turn out a uniform product that will  
sell for much higher prices than the  
ordinary run of farm made butter.

Use of the Tester.

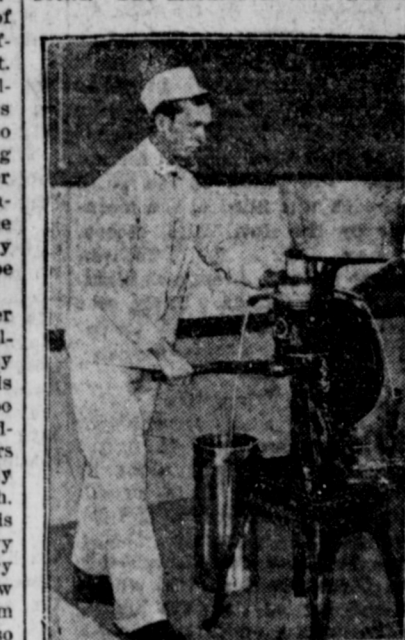

No dairy farmer can afford to be  
without a Babcock tester. A complete  
tester, consisting of a tester, milk and  
cream bottles and a supply of sulphur-  
ic acid, can be purchased for about \$5.  
With a tester the farmer can test his  
cows, as described in article 8, at home.  
He can test the separator to see that  
it is working properly. If the bowl  
is wobbly or the machine out of le-  
vel a considerable amount of butter  
may be lost in the skimmilk with-  
out the dairyman knowing anything  
about it. If you churn your own cream  
a tester will enable you to test your  
buttermilk and determine whether or  
not you are losing much butter fat in  
this way. If you patronize a cream-  
ery your tester will come handy for  
keeping a check on the tests at the  
creamery. Most creamerymen are hon-  
est, but that is all the more reason  
why the dishonest ones should be run  
out of business. Underreading the test  
2 or 3 per cent will add greatly to the  
profits of the creameryman and can-  
not be detected unless the patrons have  
testers of their own.The Babcock tester is simple to op-  
erate. The sample of milk to be test-  
ed should be thoroughly tested by  
pouring from one jar to another three  
or four times. A sample is then suck-  
ed up into the pipette. By putting  
your finger on the top of the pipette  
you can let the milk run down until it  
just comes to the mark on the neck.  
Then run the milk into one of the test  
bottles. Number the bottle to corre-  
spond with the sample. The sulphuric  
acid used is what is known as com-  
mercial sulphuric acid. The acid and  
the milk should be at the same tem-  
perature before mixing. If they have  
been in the same room for a few  
hours they will be all right. Fill the  
measuring glass up to the mark with  
the acid, taking care not to get any  
on your hands or clothing. Pour the  
acid carefully down the side of the  
bottle and then mix it thoroughly  
with the milk by giving the bottle a  
rotary motion. The sulphuric acid  
combines with the albumen and casein  
and leaves the fat free.Set the bottles in the tester as soon  
as the acid has been added. When all  
the bottles are filled the tester should  
be turned at a uniform rate of about  
100 revolutions a minute for five min-  
utes. This brings the fat to the top of  
the liquid in the bottle. Hot water  
should then be added carefully to  
bring the fat up to the neck of the  
bottle. The machine is then whirled

FIG. XIX.—USING HAND SEPARATOR.

for two minutes. Then more hot wa-  
ter is added to bring the fat column up  
into the graduated neck of the bottle.  
After this the machine is whirled for  
one minute more, and the test is ready  
to read. The reading should be done  
before the fat hardens. Each of the  
small spaces on the neck of the bottle  
represents two-tenths of 1 per cent.  
The number of spaces through which  
the fat column extends indicates the  
percentage of fat in the milk.In testing cream special bottles must  
be used. A small balance is needed to  
weigh out the samples, as cream can-  
not be accurately measured. Nine  
grams are used for each sample, and  
as much more hot water is added.  
Only about two-thirds as much acid is  
needed as for milk.

## Sulphur is a Natural Element of the Hair

When there is not a sufficient amount of sulphur  
in the hair, it loses its life, color and strength,  
turns gray, and falls out. There are many forms  
of sulphur, but only one kind that is suitable for  
treatment of the hair and scalp, and that is the  
kind used in preparing WYETH'S SAGE  
AND SULPHUR HAIR REMEDY.We Have the Secret, and We Give You the Benefit of  
It at an Exceedingly Low PriceFor two or three years my hair had been falling out  
and getting quite thin, until the top of my head was  
entirely bald. About four months ago I commenced  
using Sage and Sulphur. The first bottle seemed to  
do some good and I kept using it regularly, until now  
I have used four bottles. The whole top of my head  
is now fairly covered with hair, and it keeps coming  
in thicker. I shall keep on using it a while longer, as  
I notice a constant improvement.

## PATRIOTIC WAS CHURCH SERVICE

AND GOOD COLLECTION TAKEN FOR HOME MISSIONS.

Dr. Wright Preaches on Source of Revelation of Spiritual Things.

ALL SERVICES WELL ATTENDED

"Eye hath not seen, Nor ear heard, Neither have entered into the Heart of man, The Things, which God hath prepared, For them that love Him."

The fatherhood of God and brotherhood of man. Herein lies the secret of the kingdom of heaven, was the substance of what Dr. D. C. Wright said at Grace Episcopal church yesterday morning, taking his text from 1 Cor., II, 9. To every man God means a different thing, according to his spiritual development and the purity of his heart. The eye, which catches the highest beauties and delights of all the senses, cannot see the glory of God; the ear cannot catch it from the spoken word; the imagination, the most wonderful gift to man, that first conceives the perfected work before the brain and hands execute it cannot comprehend what God has prepared for them that love him. These things are the gift of the spirit and are received by the Holy Spirit, which is in man. Revelation can only come from God to the individual through Christ. Every Godlike deed, every mastery over evil, every act of brotherly kindness to one's fellow man, done in His name, reveals God to us.

Next Sunday Dr. Wright will deliver the baccalaureate sermon at Hickman. The only services at Grace church will be Sunday school and the regular morning sermon by the Rev. E. C. McAllister.

**Patriotic Service.**  
 A patriotic service was conducted at the First Christian church yesterday morning. The pastor, the Rev. W. A. Fite, preached on the subject of "What is Americanism?" and a large congregation was present. The offering for Home Missions taken at the morning service amounted to about \$90, while there are more pledges yet to come in. There were two additions to the church, one being a convert. At the evening hour a special song service was held and splendid music furnished by the choir and male quartet. An appreciative audience was present. Wednesday evening at the prayer meeting Mr. Fite will speak on "The Holy Spirit's Equipment for Service."

**Sunday School Rally.**

Five Wednesday from Louisville on his way to the convention at Bardwell. Services in the morning were well attended yesterday while a small congregation was present last night.

**Large Congregations.**  
 Large congregations attended the services at the Second Baptist church yesterday. It was announced at the service by the pastor, the Rev. G. B. Smalley, that the revival would begin Sunday, May 22. It will be conducted by the Rev. B. A. Ellis, pastor of the First Baptist church at Corinth, Miss.

**Ladies' Aid.**  
 The Ladies' Aid society of the German Lutheran church will meet on Wednesday afternoon at 3 o'clock with Mrs. Fred Kamleiter, 709 Kentucky avenue.

**C. W. B. M. Convention.**  
 The annual Christian convention of the Twenty-third district of the state will be held in Bardwell, Ky., Thursday and Friday of this week. The Rev. W. A. Fite, of the First Christian church, and the Rev. G. B. Wyatt, of the Tenth Street Christian church, will both attend with delegations from each of the congregations. The Rev. Robert M. Hopkins, of Louisville, state Sunday school evangelist, will arrive Wednesday and attend the convention also. He will be accompanied by his wife.

**South Side Circuit.**  
 The Rev. J. B. Pearson preached at Kevil yesterday, filling the place of the Rev. Mr. Brassfield, who is recovering from an operation for appendicitis. The pulpit of the Third Street church was filled at the morning hour by the Rev. W. J. Meeco. The Rev. G. T. Sullivan preached at Guthrie Avenue at night, to a fine congregation. There was one conversion and addition to the church.

**Christian Education.**  
 One of the strongest sermons ever heard from the Broadway Methodist pulpit was delivered last night by the Rev. W. J. Meeco, D. D., presiding elder of the Paducah district. Christian Education was the theme, and every sentence was thought-laden. Dr. Meeco is a student and a thinker and was on fire with his big theme, the greater educational needs and possibilities. He was optimistic, though and inspiring. All who are interested in education, as well as all who are not, should have heard him.

## HOOKS DEFEATED BROOKPORT TEAM

SHUT OUT ILLINOIS TEAM IN A FAST GAME.

Elks Are Defeated in Hard Fought Contest at Mounds, Ill., Sunday.

BENTON TEAM IS VICTORIOUS

With the Brookport batters completely at his mercy, Lee Hart, twirling the best kind of ball for the B. B. Hook team, defeated the Brookport Eagles at Brookport, Ill., yesterday afternoon by a score of 4 to 0. Not only was the score decisive, but the dose of whitewash was well soaked in, as the Illinois lads did not get a man on base until the sixth inning. Brookport was never dangerous, and at the few opportunities presented for a victory, Hart quickly ended them with a strikeout.

A large crowd saw the Paducahans administer the defeat and humble the Brookport team on its own lot. Council started the game for Brookport, but his former teammates took a liking to his curves and he was relieved in the sixth inning by Veach, who fared little better. The Hooks had on their batting clothes and swatted everything that neared the pan. Sixteen hits were secured by the Hooks while only bingles were the reward for the Brookport team. Doyle caught for Brookport while Block caught a pretty game for the Hooks. Hart had ten strikeouts.

The teams lined up:

**Elks Lose to Mounds.**  
 At Mounds, Ill., yesterday the Elks baseball team lost an exciting game to the strong Mounds team. A trip in an aeroplane in the seventh inning by the Elks, the splendid pitching of Hooper for Mounds and the rare support of his teammates affording a combination too strong for the Elks. McChesney twirled for Paducah, and without the balloon trip of his brother lodgemen would have scored a tie or possibly a victory.

In the second inning Mounds scored a run, while in the third inning Groves was on the sacks and scored on a squeeze play. With the score in this ratio the game continued until the seventh when a few misplays were bunched and the speedy Mounds players had the game cinched. Paducah tried hard to retrieve the lost honors, but Hooper avoided danger. Although hit freely, the sphere went where a player stood ready to receive it.

Williams, Rose, Groves and Henneberger scored the four hits for Paducah. The Paducah players with a bunch of rooters returned last night at 11:30 o'clock on the steamer Dick Fowler. The team lined up: Groves, c; McChesney, p; Henneberger and Gourieux, lb; Goodman, 2b; Ripley, 3b; Robertson, ss; Reed, lf; Williams, cf; Rose, rf.

**Benton Victorious.**  
 By a score of 11 to 3 the Benton baseball team defeated the Culleys yesterday afternoon at Benton. In the seventh inning the score was 3 to 3 when the Culleys say they were accorded some bad decisions, and made no attempt to play in the last two innings. Players were switched around while the Benton boys ran up the score. Stilley pitched a steady game for Benton, while Dicke, Mount, Hanners and Cathey took turns at officiating in the box for the Culleys.

The score: R H E  
 Benton ..... 11 6 4  
 Culleys ..... 3 7 2  
 The Culleys lined up: Cathey, c; Hanners, p; Dicke, lb; McGuire, 2b; Harper, 3b; Ford, ss; Sneed, lf; Jones, cf; Mount, rf.

**YOUTH WANDERS AWAY AND WOULD JOIN THE ARMY.**

Night Captain John Dorian at police headquarters received a long distance telephone message from W. G. Hill, at Pierce station, Tenn., last night asking the police here to find Herman Pierce, a young man who has wandered away from home with the intention of becoming a soldier. Mr. Pierce says the boy will doubtless come to Paducah and warns the army recruiting officers not to enlist the young man, as his mind is said to be affected, and he is in no condition to enter that service. Nothing of Young Pierce has been seen.

"Harold is very slow, isn't he?" "Yes, he always was backward. Even as a child he never got the summer complaint until in the winter."—Kansas City Star.

# Tomorrow LAST DAY Of the Free Cooking Demonstrations

The program will prove very interesting to the ladies of Paducah, and they should not fail to attend the demonstration at 2:30 p. m. Come and be convinced that the most delicious things conceivable can be cooked on the GAS RANGE.

## Gas Ranges

We are taking this opportunity of telling our present and prospective patrons that we have a carload supply of 1910 Ranges that sell for from \$16.50 to \$50.00. We will sell any of these on the payment plan, or will allow 10 per cent discount for cash. We also have a number of second hand Gas Stoves, all in excellent condition, that sell at from \$6.00 to \$15.00, cash price. Set your price and we'll find a stove for you.

## Electric Flat Irons

We are putting out the newest type Electric Flat Irons on 30 days' trial. They are going fast, too. Let us send you one. It will cost you nothing unless you wish to buy it. Electric Irons are very popular, and we are sure that once you have tried one you'll never be able to do without one. Just telephone tomorrow and we will send one out.

## Heating Appliances!

We have a very attractive array of Electric Cooking Devices and Heating Appliances, such as Coffee Percolators, Chafing Dishes, Toasters, Tea Kettles, Curling Irons, Curling Iron Heaters, Hot Water Cups, Stoves, Heating Pads, Etc., and will be glad to show them to you and explain their convenience at any time.
